Professional Summary

Full Stack Developer with 2+ years of experience building scalable web and mobile applications using MERN stack, Next.js, and React Native. Strong expertise in frontend development, REST API integration, and performance optimization.

Education

Sunder Deep Engineering College   Aug 2019 – Jul 2023
Bachelor of Science in Computer Science   *Ghaziabad, Uttar Pradesh, India*

Experience

Spoxtale Digitech Pvt Ltd   Oct 2023 – Present
Software Development Associate   *Noida, Uttar Pradesh, India*
- Developed and deployed 3+ mobile and web applications using React Native, Next.js, and PHP for client-facing products, reducing feature delivery time by 30% and deployment errors by 20% through improved CI/CD workflows, pre-release testing, and faster time-to-market across multiple release cycles.

Projects

MH Deliveries | *React.js, Node.js, Express.js, MongoDB, Socket.io*
- Built a delivery management platform with real-time order tracking, rider assignment, and role-based authentication using the MERN stack.
- Implemented scalable REST APIs and real-time updates with Socket.io, contributing to a 40% increase in daily completed deliveries.

NIET CGE Website | *React.js, Next.js, Tailwind CSS*
- Developed an SEO-optimized, high-performance academic website using Next.js with SSR and responsive UI components.
- Improved page load speed and Core Web Vitals through image optimization, lazy loading, and performance tuning.

2PointOh | *Shopify, Liquid, JavaScript*
- Maintained and enhanced a live Shopify e-commerce website by implementing product catalog improvements, custom theme updates, and Liquid integrations to improve UX and performance.

NIET Website | *PHP, SQL*
- Maintained and updated a high-traffic institutional website by implementing UI changes, content updates, and performance optimizations to ensure reliability and responsiveness.

Technical Skills

Languages: JavaScript (ES6+), PHP, HTML5, CSS3, React Native, Basic C++ for DSA concepts
Technologies: React.js,Next js, Express.js, Next.js, Tailwind CSS, Material-UI (MUI), Bootstrap
Concepts: CI/CD Pipelines, Artificial Intelligence, Machine Learning, API, Agile Methodology, Cloud Computing
Backend and Authentication: Node.js, MongoDB, JWT-based Authentication, OAuth 2.0 Integration
Tools and Platforms: VS Code, Antigravity, Git/GitHub, Postman, Docker, N8N, Netlify, Vercel, npm/yarn

Achievements

- Completed **Career Essentials in Data Analysis** by Microsoft and LinkedIn, gaining hands-on experience with Excel, Power BI, and data visualization fundamentals (View Certificate).

- Earned **Career Essentials in Software Development** by Microsoft and LinkedIn, covering Git/GitHub, databases, and core software engineering principles (View Certificate).

- Completed **Learning Docker** by LinkedIn Learning, with practical experience in containerization, Docker CLI, Docker Hub, and deploying containerized applications (View Certificate).
